## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach the claimed subject matter of claims 1 and 3-10. Therefore claims 1 and 3-10 are allowable because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior art which teaches a method for generating a color match between a target object and a source object comprising the steps of repeating steps b-e until either a predetermined number of repetitions has been reached or the spacing drops below a predetermined error value as recited in claim 1, including all of the other features recited therein. It follows that claims 3-10 are then inherently allowable for depending on an allowable base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
